Wildlife observation weekend

Friday 25th August to Sunday 27th August 2017

The intact nature of the Welschtobel is a great place to spot native wildlife: Chamois, deer and maybe even the golden eagle. The local hotelier, mountain guide and hunter will show you how to find them and tell you about their particular habits.

What to bring for the wildlife observation: sturdy shoes, warm clothes and raingear.
We recommend to bring your camera.

2-night package, price per person
